Dedication

OUR 1959 GRADUATING CLASS HAS THE HONOR OF BEING THE FIRST SENIORS TO COMPLETE FOUR YEARS IN THE NEW CENTRAL HIGH SCHOOL, DEDICATED TO THE IMMACULATE CONCEPTION--NOTRE DAME.

To Mary, the Mystic Rose of God, under the beautiful title of the Immaculate Conception, the precious Pearl of our century and the Tower of Strength against our foes, we pledge our troth and dedicate our yearbook. Placing our trust in this Anchor of Hope, we fear not, though these days are fraught with imminent danger of war and our vision of the future is clouded by the fog of international confusion.

It is we who must rekindle the flame in the Lamp of Christianity, whose rays alone will guide us to peace on earth. Therefore, with Catholic principles as our weapon and our Victorious Mother leading us onward "to fight the good fight," let us throw back our shoulders, look up to the stars and accept this challenge presented to Christian Youth of today.

The flower of our valley
Is like a holy flame
That lights both earth and heaven
And bears a sacred name;
In loving veneration,
In childlike joy and awe,
We sing the praise of Mary,
The Rose without a flaw.

We are happy to present this pictorial record of the joyful, productive hours of academic toil, the gay festive gatherings at school events and the friendly atmosphere of students and faculty .

It is our desire to have this issue of Notre Dame mean more than a souvenir from 1959, since we have tried to produce an annual that is not just a reminder of classmates, events, and good times. Easily depicted are the highlights of our years at "Notre Dame"; less easily, it is to express that which made our four years fruitful---a Christian Education.

In our yearbook we wish to show how the principles of a Christian Education are being realized in our school organization. May the theme, "Christian Education," which we have adopted express the truth, that, "there can be no ideally perfect education which is not Christian."

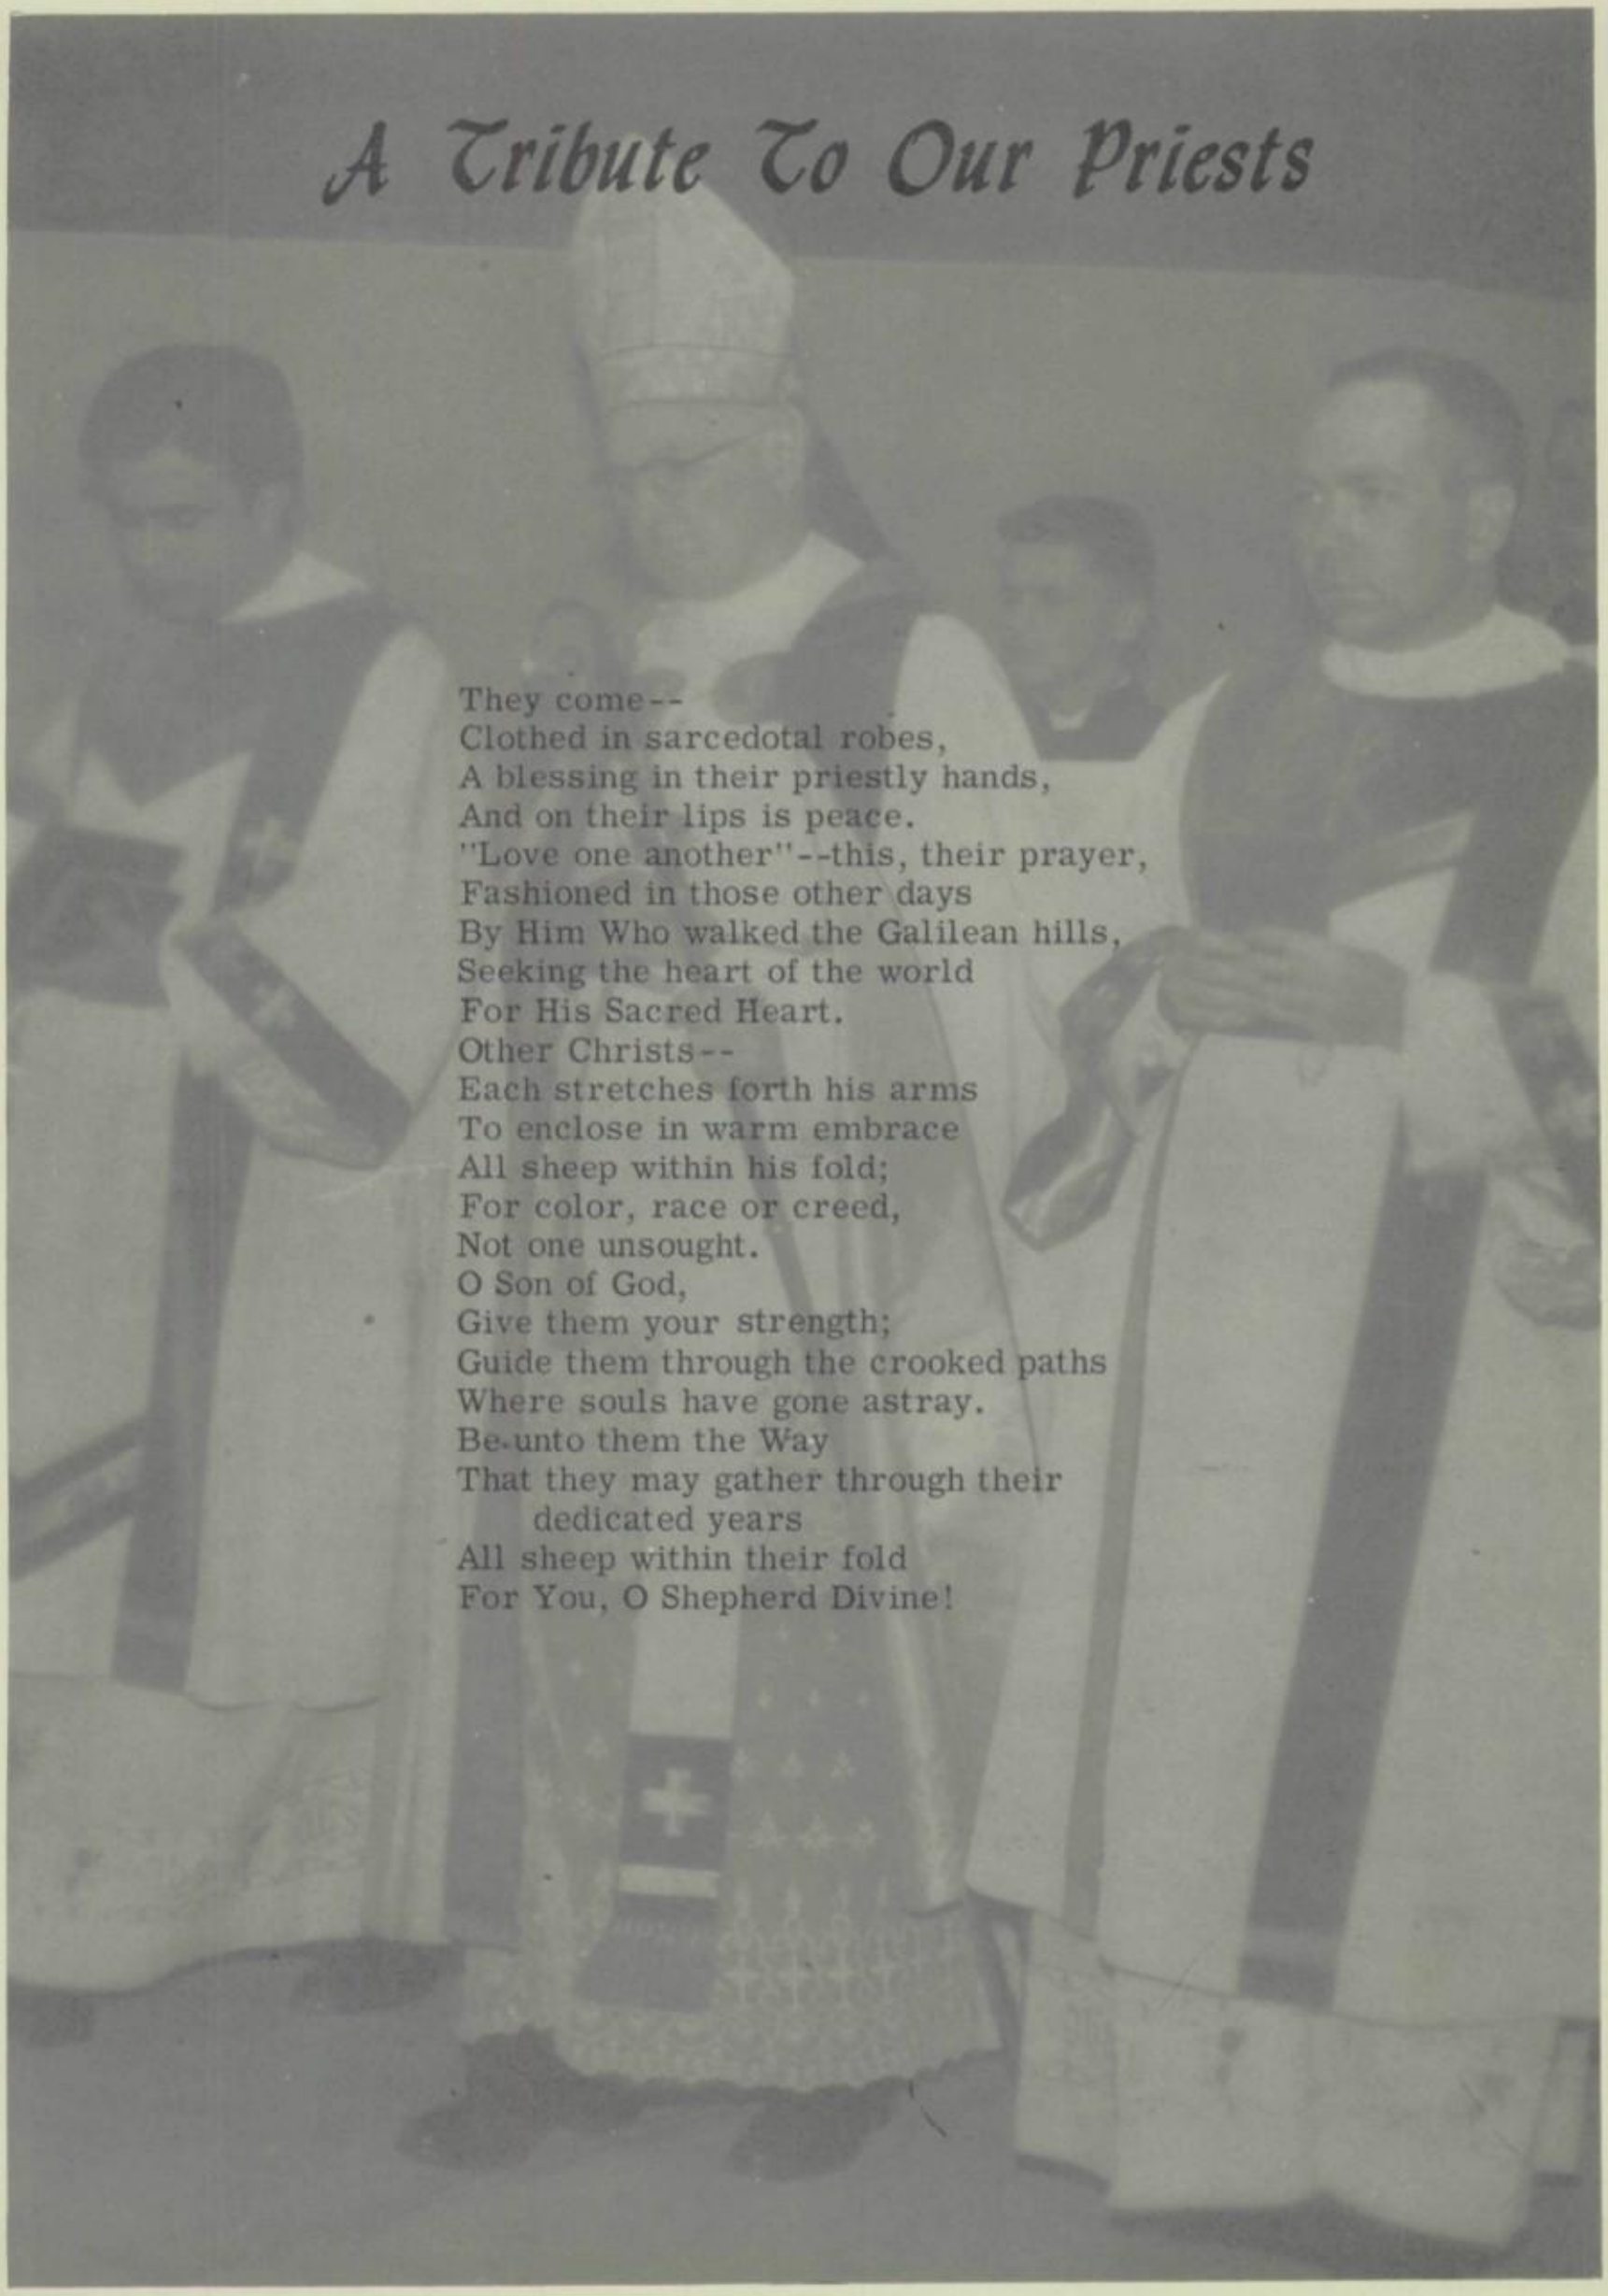
The Right Reverend

Monsignor John J. O'Brien

We, the Seniors of 1959, take this opportunity to express our sincere gratitude to Monsignor O'Brien whose undying interest in Christian Education has prompted him to erect a school, which is second to none in our state. Yes, a school from which we are proud to graduate. It is Monsignor's fatherly interest in all our affairs, both spiritual and temporal, that has inspired us to make success our goal.

A Tribute To Our Priests



They come--
Clothed in sarcedotal robes,
A blessing in their priestly hands,
And on their lips is peace.
"Love one another"--this, their prayer,
Fashioned in those other days
By Him Who walked the Galilean hills,
Seeking the heart of the world
For His Sacred Heart.
Other Christs--
Each stretches forth his arms
To enclose in warm embrace
All sheep within his fold;
For color, race or creed,
Not one unsought.
O Son of God,
Give them your strength;
Guide them through the crooked paths
Where souls have gone astray.
Be-unto them the Way
That they may gather through their
dedicated years
All sheep within their fold
For You, O Shepherd Divine!

Christ's Cooperatives In Christian Education

Coat of Arms of His Holiness,
Pope Pius XII

"Indeed a good Catholic, precisely because of his Catholic principles, makes a better citizen, attached to his country and loyally submissive to constituted authority in every legitimate form of government."

His Holiness, Pope Pius XII, realizing the necessity of Christian Education, if peace is to prevail, has said, "The Christian Education of youth was never of more decisive or vital importance than it is today."

"Christian Education", of which our late Holy Father speaks, belongs primarily to our good parents. Secondly, it rests in the capable hands of our pastors and teachers who are responsible for the Christian Education of hundreds of young Catholics in Notre Dame High School.

We Seniors have enjoyed the privilege of sharing the benefits derived from their expert guidance and vision as educators, dedicated to the philosophy, that only education with religion shapes the ideal citizen for the future.

Our Instructors In Studies

We are their garden where they sow the
seeds of culture and of truth;
They tend with loving care
The beauty they find there;
They snip the wild shoots from the stem,
Then soothe with ointment each of them.
We are their garden--a beautiful garden--
a garden of youth.

Your Teachers Speak

God keep your going out, my child,
From these maternal walls,
Whose loving claim will follow you
Through triumphs and through falls.

God keep your coming in my child,
To life's maturer days;
May later years reflect the light
Of youth's undaunted ways.

Of all we ever taught you, dear,
This is the first and best,
That you are Christ's. Remember this,
And He will teach the rest.

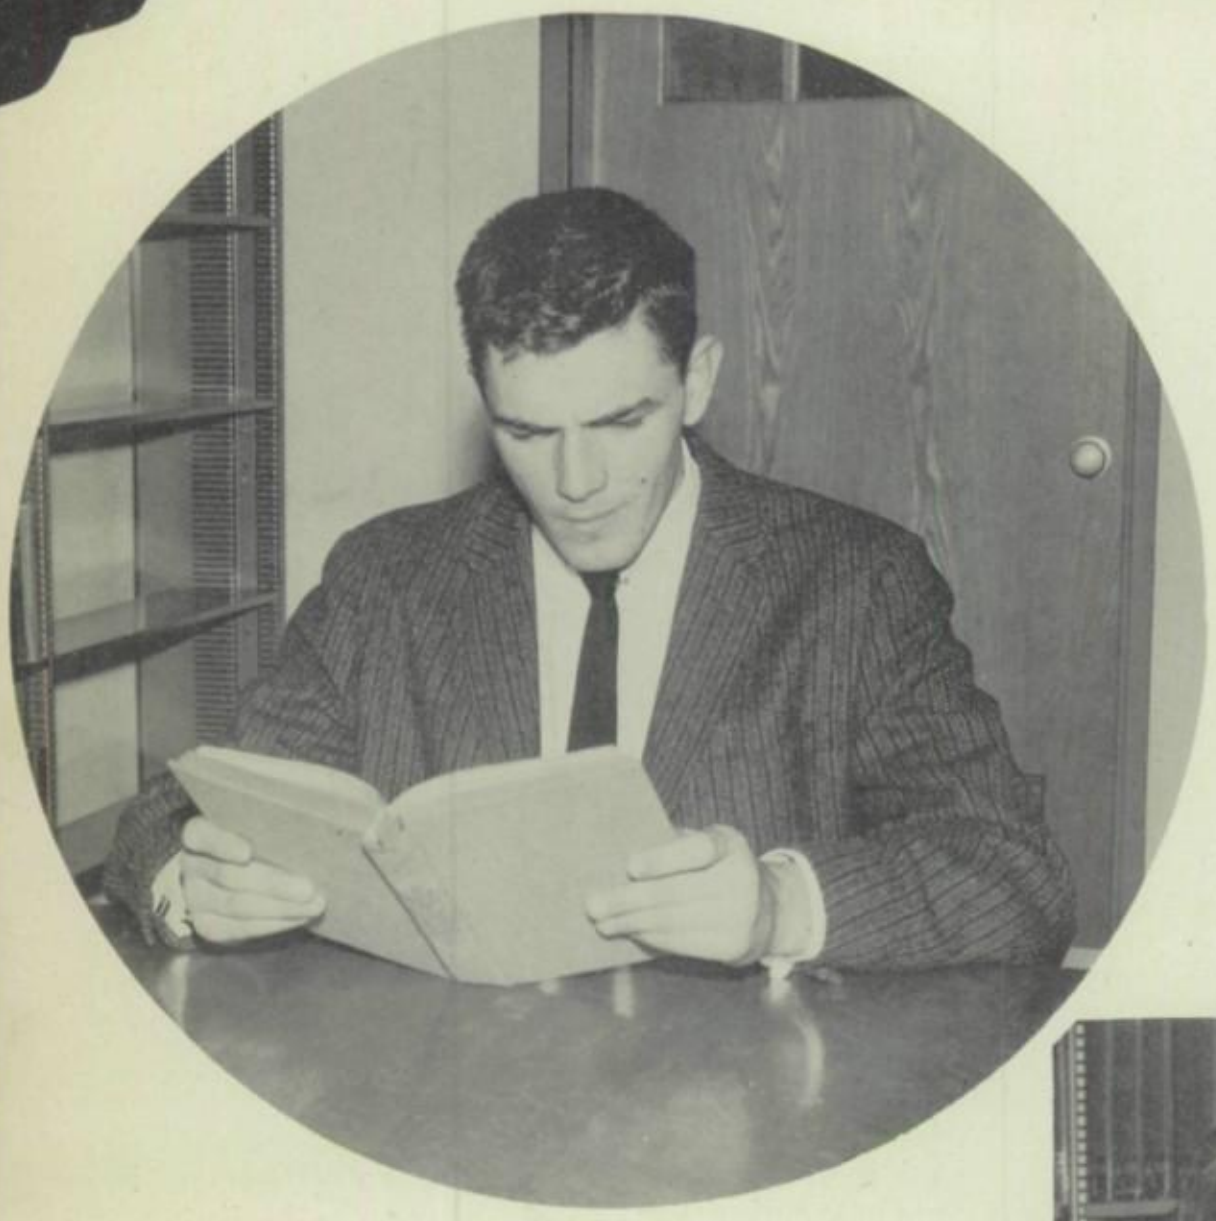
LETTERS AND ARTS REVEAL THE DIVINE



BROWSING AMONG BOOKS

Here we meet David Copperfield, Oliver Twist and the other children of Dickens' pen, and we come to realize our fortune of being children of the twentieth century. Here stands our late Pope Pius XII who taught us how to carry high the lantern of hope; here lives Thomas Dooley enduring uncomplainingly the hardships of native life; here in the shadows lurks Macbeth, stained with the guilt of inordinate ambitions.

Hamlet sits here too with the child like Ophelia at his side; and Juliet listens as the rustling of leaves proclaims that Romeo is climbing to her balconied casement. Here are many other characters from romances, biographies, essays, and dramas, all contributing to our knowledge of human character.

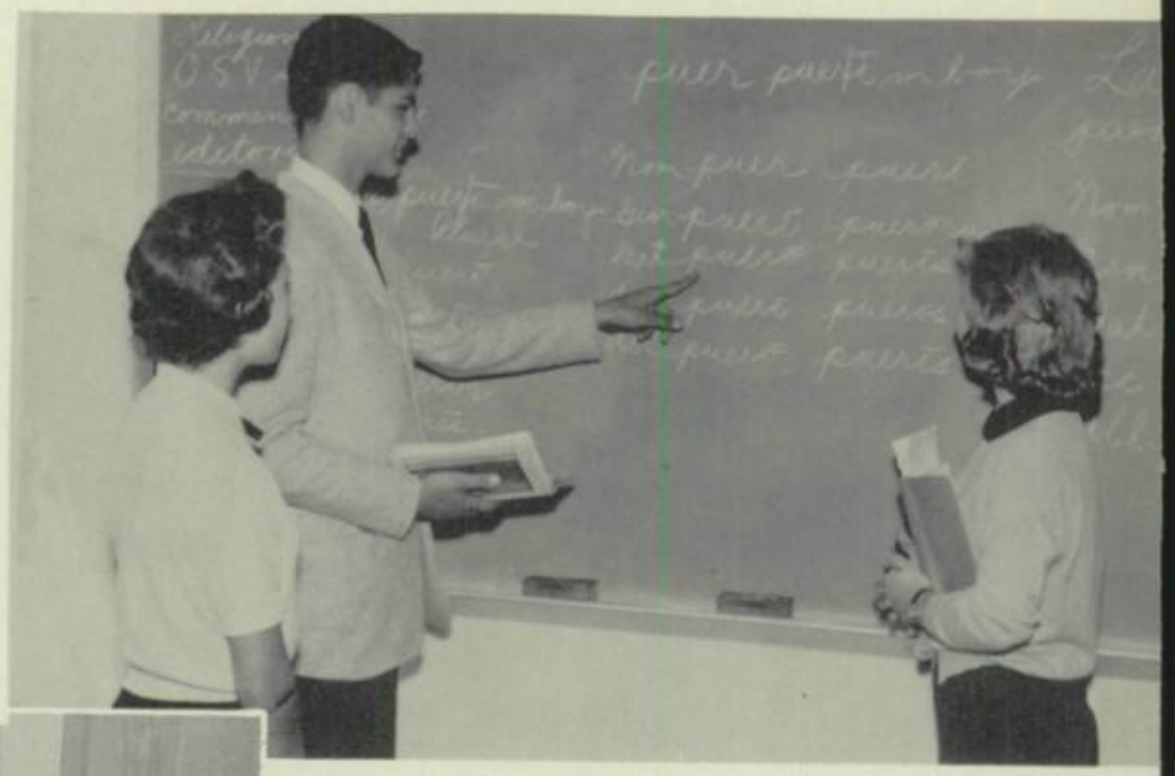
PRINCIPLES ESSENTIAL TO LIBERAL EDUCATION

Languages---

THE ROAD THROUGH OTHER LANDS---



A STUDY IN LATIN I

First year Latin takes us back to the beginnings of the Roman Empire---its mythical foundation on the seven hills, as told in the "Aeneid"; to the rise of the Caesars; to the Age of Augustus, which brought forth such men as Archias, the poet, and Pompey, as mentioned by Cicero in his immortal orations.

FRENCH HIGHLIGHTS THIS GROUP

In the study of French, we learn of the land of romance and of saints. Paris by night; the French Riviera, a country side made famous by the Barbizon painters; Orleans and Saint Joan of Arc; Lisieux and its Little Flower; Holy Lourdes and Bernadette---all become a part of us while we diligently apply ourselves to French verbs.

A SCENE FROM LATIN II

Caesar might have frightened the Helvetians, but he can't daunt this group in second year Latin.

Mathematics---

A DEMONSTRATION IN ALGEBRA
Edward Saas proudly exhibits his progress in Algebra I to an interested group in Algebra II.

ORDERING ALL THINGS WELL
Mathematics plays such an integral part in our daily lives that it is taken for granted; but, without it, life would cease to function. Every head of a family can tell you how speedy logical thinking helps in making out a budget. Could this be traced back to working geometry propositions and originals in high school?

TRIGONOMETRY HOLDS THE INTEREST HERE
Frederick Gyke, Allan Noe and Lewis Roman make a study of trigonometry.

AND DEVELOPS LOGICAL MINDS.

Commerce---

DEVELOPS HABITS OF THRIFT SO ESSENTIAL

These seniors are waiting patiently for the periodic check in bookkeeping assignments.

"Morning, evening, noon and night, praise God!" sang Browning's "Theocrite". A similar prayer may be offered by the businessman who gets a good typist, especially, our efficient yearbook typist, Josephine Simon.

Commercial art, added to the curriculum this year, has furnished us with beautiful signs at every school function.

ACCURACY AND INTEGRITY IN SOCIETY

Commerce---

Shorthand is no stumbling block for this splendid group of students.

The juniors claim it's a thrill to be able to type that first sentence without peeking at the keys even once.

Here the pupil becomes the teacher in business mathematics.

OUR GATEWAY TO ADVENTURE

The history book is the key that opens every period of the past and makes us sharers in all the adventures of the ages.

Our Lady is a seamstress, patiently

Over the world's workbasket and

She likes to thread a needle, pick
up a dream,
Slip on her thimble and sew in
a seam.
What would we do without her?

Betty Crocker has nothing on our efficient cooks and dainty servers, who have proven their ability as future "home makers" at several school functions this year, especially during our first "Career Day" at Notre Dame.

ST. PETER'S

FRUITS OF A CHRISTIAN EDUCATION

. . .Christian Education has formed men who have in every way enobled and benefited human society. Indeed, the saints have ever been, are, and ever will be, the greatest benefactors of society and perfect models for every class and profession. . . . .Pope Pius XI.

A thoroughly Christian Education that distinguishes Notre Dame's Curriculum shall ever be held a cherished privilege and a precious heritage. Equipped with those fundamentals that make progress secure, we graduates are destined to wield a salutary influence through many generations.

What we have absorbed during these four scholastic years, in surroundings, where sacrifice, innocence and love are happily blended, will stand by us forever.

We salute our Alma Mater, praying that the good works we have so well begun, may be crowned with eternal splendors.

Farewell, dear Alma Mater!
We leave thee with regret;
Where 'er our path-ways lead us,
We ne'er shall thee forget.

Sweet memories cluster 'round thee
Like attar of the rose;
And golden is the vision,
That ever brightly glows.

Farewell, to thee dear Notre Dame!
Thy bounties did we share;
We bless thy kindly counsel
Thy wisdom and thy care.

Like children home returning,
May we oft' seek thy side;
Thrilled with a host of memories,
And filled with filial pride.

Lift high the Cross, unfurl the Flag, may they
forever stand,
United in our hearts and hopes, God and
our native land.
